PROGRAMME ARCHITECTURE

In today's inclusive world, a thorough knowledge in administration has become a must for anyone who wants to accomplish something successfully in business dealings. Management skills are acquired through practice, observation and most importantly through right training.

The only way to acquire these is through a programme that solely emphasizes management skills. The preeminent way to learn management would obviously be from a B-school itself. K.S. School of Business Management is a pioneer in management education in the country, being the first five year integrated program of its kind for MBA. It started in 1993 by offering B.B.A. degree and consequently evolved into the recent course.

Established by Gujarat University to boost the traditional business acumen of the enterprising Gujaratis with formal management education, it has now developed into a highly professional institute with academic excellence and has contributed several professional managers to many organizations over the years. It is the endeavor of the Institute to equip and train the students to accomplish the needs of the country and community through knowledge and excellence. The Programme unifies theoretical concepts and practical learning, combining authentic management training and education with specially developed learning activities to help an individual become dexterous in management and showcase the skills more effectively and self-assuredly. We believe that a successful management programme does not only rely on just excellent teaching but also draws strength from by and large experience that it delivers. K.S Students are exposed to ample of opportunities to learn, realize, explore and apply experimentally. The classroom learning facilitates sufficient understanding of conceptual aspects backed by an array of methods like Case Study Techniques, Simulation Exercise, Role Play, Group Discussions, Project Work and Presentations.

The course curriculum is spread through five years of semester structure consisting of ten semesters. The academic year is from July to April. In the first six semesters, more emphasis is on theoretical concepts on subjects like Accounting, Quantitative Technique, Management, Communication Skills and Economics with side by side course projects and industry visits. At the end of three years, students are awarded the degree of B.B.A. Simultaneously students can also get the D.C.A. degree. On successful completion of the Fifth year, students are awarded the degree of Masters in Business Administration from Gujarat University.

Coming to KSSBM in 1995 was a blessing for me. Being the only institute offering 5 years Integrated Course, it was a much talked about institute and back then we were just the 3rd batch! The ever so helpful faculties with rich knowledge and experience coming from different institutes gave us much needed confidence and prepared us to face the corporate world and challenges. My wonderful co-students now friends for life most of them were board rankers. Together we have great memories of the campus - our very own Culfest - Tornado. K.S School of Business Management is one of the best place to get your knowledge at higher level. Best thing about K.S.S.B.M is you get best practical knowledge and understanding on technical aspects which is to be applied on right time. K.S.S.B.M gives you the best in class studying having faculties experience of more than 10 years, which helps to graspe more knowledge in the subject and ease of understanding every topic practically too. During my recruitment time placement cell has got all the top companies for hiring us. I can proudly say today also K.S.S.B.M rocks. K.S.S.B.M also gives practical knowledge that helps one know how to crack the interview process and what to say when technical questions are asked at the interview. Lastly I got recruitment at my first interview due to practical knowledge which I learnt from KSSBM.

PLACEMENT PROCEDURE

After two glorious decades of enjoying the faith of the corporate world in our students as well as faculty, expressed through successful final placements and summer internships, K.S. School of Business Management looks forward to continue the trend in its twenty fifth year. Every year corporate companies are invited to the campus for summer and final Placements. K.S. School of Business Management is immensely grateful to corporate and institutions for the faith reposed in us by them through the years and warmly welcome for the process in the year 2019-20.

SUMMER INTERNSHIP PLACEMENTS

The selection process for Summer Placement will be commencing from February 2020. The official period of summer training would be for 8 weeks commencing from 1st May, 2020.

There is no system of ranking/slotting the companies and they would be selecting the students on first-cum-first basis.

Companies can invite applications for summer placements by inviting students with their updated resumes. Companies can address the students for Summer Placements during their PrePlacement Talk.

Every student is allowed to apply for as many companies as s/he wishes to. However, s/he will be out of placement process once an offer is received by him/her. No second offer is permissible.
